Bachelor of Arts | Major—Management Information Systems | GPA—3.53 (dropped out)

- Concentration: Business Analytics & Business Information Systems
 - Notable coursework: Business Analytics, Management Information Systems, Change Management
-

EXPERIENCE

Clickable Impact Asia | Ho Chi Minh City, Vietnam

Contractor (Research on Corporate Governance)

July 2025 – August 2025

- Assessed corporate governance landscape of energy enterprises in the Lancang-Mekong region (we focused on Vietnam, Lao, Cambodia, and Thailand) by comparing four international governance standards (ASEAN Corporate Governance Scoreboard, OECD Principles, IFC Methodology, and GRI 2 Guidance)
- Found a key finding that SOEs in the region vary in corporate governance practices, and most do not reach international standards; proposed an adaptive governance framework for regional collaboration on the matter
- Transcribed confidential interviews by using a localized (i.e., not connected to the Internet) Whisper model (OpenAI's opensource automatic speech recognition system)

Contractor (Data Collection on Semiconductor Industry)

April 2024 – April 2024

- Collected and analyzed data from Vietnam's semiconductor test & assembly companies with a structured prompting technique for web-scraping via the ChatGPT-4 model

New Energy Nexus Vietnam (NEXVN) | Ho Chi Minh City, Vietnam

Data Management and Reporting Associate

March 2024 – February 2025

- Managed data, wording, and reporting standards across the organization to ensure conceptual correctness and efficient stakeholder-outreach activities
- Completed the the [Vietnam Climate Tech Funding Ecosystem Report 2024](#) as representative of NEXVN in the (multi-firm) collaboration and as a key personnel specializing in data analysis and quantitative measurements
- Proposed, built, and operated NEXVN's new Airtable database management system

Project Assistant (ad-hoc role)

November 2023 – February 2024

- Provided industry intelligence for the newly founded Deltacelerate team on startup ecosystem and venture capital's financing process and made a Monitoring-Evaluation-Accountability-Learning plan (as we were contracted by the Australian Government)

Program Intern

August 2023 – October 2023

- Conducted desk research and conceptual refining of Vietnam's climate-tech ecosystem
 - Collected a comprehensive dataset about startups, sectors, deals, and investors (electively from Dealroom, Crunchbase, Tech in Asia, Deal Street Asia, etc.) for later analysis
-

PERSONAL PROJECTS

- AssetLover: A 7-agent AI research system I built for macroeconomics research. You drop a PDF in, and a team of specialized Claude agents collaborates to synthesize literature, derive formal results with auditable step-by-step math, run adversarial L2 critiques, and compile a LaTeX working paper—end to end. ([GitHub repo](#))
- (Ongoing) A DSGE macroeconomic model that focus on land-use rights in Vietnam and China (SSRN: TBD)
